

Move complex programs forward.

Fractional program leadership, project controls, risk, policy, and performance support for public and mission-driven teams.

When delivery is hard to see, decisions slow down. We establish the priorities, reporting, controls, and follow-through leaders need to regain visibility and act.

WHERE WE HELP

PROGRAM DELIVERY

PMO setup or reset; schedules, RAID, implementation readiness, stakeholder coordination, and executive reporting.

RISK & OPERATIONS

Risk reviews, policy and SOP development, governance routines, and operational improvement.

PERFORMANCE & CONTROLS

KPI and dashboard requirements, evaluation, grant monitoring, cost and funding tracking, invoice review, and forecasting.

PROOF FROM PRIOR ROLES

\$5M+

annual program budgets managed

20+

policies and procedures improved

36

states represented in survey analysis

Additional documented work: supported 5+ federal evaluations, worked with 25 contractors and consultants, and contributed to analysis of 1,000+ records. These figures describe scope and outputs in prior employment, not Action Global Advisors client results.

RELEVANT ENVIRONMENTS

VA electronic health record modernization - governance, readiness, risk, Power BI and SharePoint reporting. DC Water capital programs - contract funding, invoice review, forecasting, Oracle Unifier and Potomac Tunnel support. FDA/CDER - operational analysis, SOPs, job aids and implementation support. Maryland programs - policy, evaluation, grants and local-government operations.

FLEXIBLE WAYS TO ENGAGE

Focused diagnostic to establish priorities and an action plan | PMO or controls setup for a defined workstream | Fractional or subcontract delivery for ongoing execution support. Scope, schedule, and fees are set for each engagement.
